

The University of Kansas Chemistry REU Program

Apply now for Summer 2026

Program Benefits

\$7000 Stipend
Travel allowance
Housing and meal plan included
Support for presenting results at regional or national scientific meetings

Research Interest Areas

Chemical Synthesis and Catalysis
Theoretical and Computational Chemistry
Materials Chemistry, Energy and Nanoscience
Lasers, Spectroscopy and Molecular Dynamics
Chemical Biology, Microfluidics and Mass Spectrometry

Professional Development Activities

Scientific Communication
Career Opportunities
Sustainability in Chemistry

Apply with NSF ETAP
